This question of a general amnesty has been before the Cabinet once, but was opposed by all, so says a report, says Mr. Beward. Should the President, therefore, conclude to issue a proclamation looking to that end, he will have to do it pretty much on his own responsibility.

Bostonians are preparing for a general immersion all around through the coming season. The City Fathers have just appropriated \$10,000 for baths, and men, women and children are expected to bathe themselves forthwith to the aqueous element, and there remain until the work of purification is complete.

Accounts from Mobile represent that small pox, which has been epidemic in that city for several weeks, is sensibly on the decline. Its ravages have been confined principally to the black population, though a number of whites who had neglected the safeguard of vaccination have become its victims.

LOCAL NEWS.

NEW YORK AND THE VICINITY.

STRIKE OF THE CAR DRIVERS.—Yesterday was a bad day for parties who wanted to get any distance up town. The drivers of the Second, Third and Sixth Avenue Railroads struck for additional wages. Their present allowance is \$2 per day, out of which the unmarried men say they have to pay sixty cents for meals, viz.: breakfast, dinner and supper, being 20 cents per meal. In this matter they say they are, as a rule, innocent of anything more substantial than coffee and cakes. Meat is a luxury almost unknown to them of late, because they cannot afford it. Men who have families are still worse off. They have to work sixteen hours per day, for the allowance they get, and being unable to eat meat, they are thus so weak at times as to be almost unable to do their business. They held meetings some weeks ago, and agreed to give a week's notice of their strike. They demanded \$3 per day, but were willing to compromise on \$2.50 for the short distance, and \$2.75 to Harlem. Yesterday morning at 9 o'clock the men of the Third Avenue went in body to the Superintendent and asked for the increase. They were refused, and they immediately struck. But now came the trouble. The cars must run, and drivers must be had, and at length at 11:40, Mr. Dickerson, the Superintendent, took down the first car from the depot. In the meantime about one hundred policemen assembled, and two went into the car for the protection of the passengers. Others went into the Railroad Station on the opposite corner, and turned out all the drivers who had assembled there. Mr. Dickerson went on pretty well until he came to the terminals at the Park, when he was immediately reported by the drivers that he was being driven without a license. His name was taken by the police, and he drove back without further molestation. The next was attempted to be taken out by Malley, but he was stopped by the police, and he was reported by the drivers, who took the car and shoved it back into the depot. The next was taken out by one of the regular drivers named Moslem, and as he had a license he was permitted to pass on, but he was marked B (black list) by one who kept a book at the terminals. The third car was driven by James Wallie, the starter, and his name was also taken down as having no license. A veterinary surgeon, connected with the company, whose name our reporter could not learn, was the next driver, and he was also reported. The fifth car was driven by Edward August, a conductor, the sixth by Louis Voorn, conductor at the Park, and the seventh and eighth by other parties, who volunteered or were offered a considerable sum, as is said, and were willing for the novelty of the thing to drive. The ninth car was driven by a young conductor, who was set upon, and as he said, "bumped" by the crowd assembled at the terminals. The tenth car, the Astor House. The man who was keeping the book called him a thief, and said he was turned off for stealing. The police ordered them off. They refused to do anything but leave the track clear, remarking that they had as good a right there as the police themselves. The law cars then moved on the 34th Avenue line, where the drivers having made, as one of their number expressed it, a very foolish job off.

The Second Avenue drivers struck simultaneously with the Third, as did also the Sixth. The latter had no stop altogether, but it was understood that the Second Avenue Company gave in about four o'clock. The Eighth Avenue cars were badly overcrowded by reason of the stoppage of the 6th Avenue line, and the Fourth Avenue gained numerous accessions as far as 34th street. The Sixth Avenue cars did not run during the night. The Second Avenue drivers got all they demanded.

UNFOUNDED CHOLERA RUMORS.—The Sanitary Superintendent of the Board of Health, in a note to the President of the Board, states that a thorough post mortem examination of the body of the woman Mary Hill, of No. 41 Delancy street, reported in yesterday's Sun as having died from cholera, made in the presence of Dr. Elias Harris and Stephen Smith—both familiar with that disease—failed to develop any evidence of the epidemic. Neither is it believed that the sickness on board the steamer England, at Halifax, is really the cholera, as two other steamers since arrived in this country—the Hansa, with 700, and the Atlantic, with 900 passengers from British and German ports—had no sickness on board, nor were there any cases of that disease reported at the ports of departure. Ship fever is thought to be the sickness on board the England.

MRS. JEFFERSON DAVIS was in this city yesterday, on her way to Canada, to visit her children who are at school in that Province.

DEATH OF THOMAS DOWNING.—The well-known negro overseer and caterer of Broad street died on Tuesday, at the ripe age of 76 years. Mr. Downing was born in Accomac County, Va., in 1791. In 1819 he took up his residence in Philadelphia, whence, after a residence of seven years, he removed to this city, where he has resided since 1819. Uneducated himself, he took care that his children

should not be, and he therefore sent them to France, where his two sons had the advantage of college education. He was diligent in business and amassed considerable wealth. He owned property in this city and in Newport, E. I., which he leaves to his sons, George T. and Peter W. Downing, who continue with him have been carrying on his business for some time. His remains will be taken, tomorrow, at 1 o'clock, for the residence of Rev. John Peterson, No. 16 Wooster street, to St. Philip's P. E. Church, Mulberry street, between Houston and Bleecker streets, where the funeral services will take place.

HON. MORGAN JONES, member of Congress from the Fourth District, lies very dangerously ill at his residence in this city. His physicians have announced that his condition is exceedingly critical.

ANNIVERSARY DINNER.—The shareholders and employees of the TRIBUNE celebrated the twenty-fifth anniversary of the foundation of that journal, with a dinner at Delmonico's, on Tuesday evening. About sixty guests were present, and speeches full of wit and humor beguiled the festal hours.

PRESENTATION TO SUPERVISOR TWEED.—Supervisor William M. Tweed has been presented with a beautifully engraved set of resolutions from the Mutual Base Ball Club of this city, of which Governor John W. W. is President. Mr. Tweed is an honorary member of the Club, and these resolutions were presented to him in response to the many acts of kindness the Club has received at his hands.

FATALLY BURNED.—Yesterday Coroner Gamble held an inquest on the body of Mary Ann Baily, whose death resulted from burns received by the explosion of a can of kerosene oil. While building a fire deceased poured some oil on the fire from the can, which became ignited and exploded, setting fire to her clothes. Deceased was a native of England, and 17 years of age.

DROWNED.—The body of a man, about 60 years of age, five feet seven inches in height, was found floating in the dock off of Pier 15, North River. Coroner W. W. W. held an inquest on the body. Deceased was respectfully dressed. The body was placed on ice to await identification.

Superior Court, Part I.—Nos. 1559, 1481, 945, 1791, 2487, 2323, 2517, 2737, 1501, 1939, 2917, 811, 1539, 2149, 3151. Part II.—Nos. 1673, 2188, 2626, 3235, 2169, 3369, 974, 1954, 1994, 1995, 1999, 2000, 2004, 1545, 2917.

Common Pleas, Part I.—Nos. 1119, 1552, 1329, 1024, 1432, 1558, 977, 1274, 1619, 998, 1451, 192, 1677, 1874, 1670. Part II.—Nos. 1340, 1316, 563, 1273, 953, 593, 631, 769, 543, 1433, 764, 1028, 1383, 1036, 1429.

COLUMBIAN INSURANCE COMPANY CASE.—In the matter of the Receivership of the Columbian Insurance Co., Justice Ingraham yesterday rendered the following opinion:

I think the interests of the various persons interested in the distribution of the proceeds of the Company will be best promoted by the appointment of a man who has had experience in the management of insurance companies. The original intention was that two receivers should be appointed and act. They were so appointed, but one has resigned. Geo. A. Osmond is appointed to act in conjunction with B. Leffingwell; bonds to be given in the sum of \$25,000.

THE SCHUYLER FRANCHISE.—The argument of this case was resumed yesterday in the Supreme Court, Special Term. The chief point argued being that Mr. Ketchum having been a director of the Company at the time of the fraudulent issue of the bonds, was guilty of such negligence as to preclude him from recovering as an innocent purchaser, and that his partners were concluded by his negligence. The court expressed a doubt whether the parties could be debarrd on that account but reserved its decision.

ASSAULT—ATTEMPT TO SCUTTLE A VESSEL—MURDER, ETC.—The following cases came up before U. S. Commissioners Osborn and Betts, yesterday:

U. S. against F. C. Brown.—This case in which the defendant was charged with violent assault upon one Corlin Washington on ship board, was adjourned for further testimony.

U. S. against John Roper.—In this case in which the prisoner is charged with attempting to scuttle the bark Sprague by boring holes in her. Mr. Nash on behalf of the prisoner, argued that the offense charged was not included in the indictment, and that the act, not being an attempt to destroy, the Commissioner reserved his decision.

Robert D. Parton, John Lyons, Charles Patterson and Peter Flood, the starboard watch of the bark carried, were held by the Commissioner to await their trial on the charge of mutiny. The Commissioner holding that though the defendants had been no malice or violence intended, the banding together to refuse obedience to the commands of their captain, and thus attempt to judge what should be done and assume command of the vessel, amounted to a mutiny, and he must hold them to meet their trial on the charge of mutiny.

POLICE INTELLIGENCE.—4. *Professional Billiard Player in Court.*—Michael Geary, the celebrated billiard player, was arraigned before Justice Dowling, yesterday, on a charge of assault and battery preferred by Mr. Benjamin Garno, billiard reporter on *WEEKLY TRIBUNE*. It is stated that a recent article in that paper disparaged Geary. On the 5th inst. he entered Kavanagh's billiard saloon in Nassau street, where he met Garno. An altercation ensued, and it is charged that Geary struck Garno a heavy blow on the head with his fist, partly knocking Garno down. Geary gave bail to answer the charge. Mr. James K. Nolan, of 161 Fulton street, becoming his bondsman.

An Officer Shot at Twice.—About one o'clock yesterday morning a disturbance occurred in 10th Avenue, between 26th and 27th streets, which was quieted by Officer Ackerson of the 20th precinct. One of the rioters named John Galvin, on reaching the spot of the riot, turned and, as alleged, fired two shots at the officer, neither of which took effect. Galvin then ran into the house and went to bed, where he was arrested by the officer. A revolver was found by Officer Ackerson between the bed. The prisoner was held for trial.

Brooklyn.

SUPPOSED POISONING OF A YOUNG GIRL.—A young girl, named Margaret McCormick, about 13 years of age, residing with her parents at the corner of Meeker Avenue and Ewen street, E. D. died at 5 o'clock yesterday morning, under circumstances which lead to the belief that death was the result of poison, but in what manner administered is not known. The girl stating that she did not know what was the matter with her when taken sick. It appears that she had been employed in a pencil factory, and on reaching her home from work, about 5 o'clock on Tuesday evening, complained of a pain in her stomach, which she indicated as craved as to render travel dangerous, both to body and purse. Many people who lived in Harlem and Yorkville had "foot" at, and during the day the crowd which watched the lower terminal was very great. These proceedings continued until about half past 5, when the 3d Avenue men went to work, and the cars continued running as usual, the drivers having made, as one of their number expressed it, a very foolish job off.

The Second Avenue drivers struck simultaneously with the Third, as did also the Sixth. The latter had no stop altogether, but it was understood that the Second Avenue Company gave in about four o'clock. The Eighth Avenue cars were badly overcrowded by reason of the stoppage of the 6th Avenue line, and the Fourth Avenue gained numerous accessions as far as 34th street. The Sixth Avenue cars did not run during the night. The Second Avenue drivers got all they demanded.

UNFOUNDED CHOLERA RUMORS.—The Sanitary Superintendent of the Board of Health, in a note to the President of the Board, states that a thorough post mortem examination of the body of the woman Mary Hill, of No. 41 Delancy street, reported in yesterday's Sun as having died from cholera, made in the presence of Dr. Elias Harris and Stephen Smith—both familiar with that disease—failed to develop any evidence of the epidemic. Neither is it believed that the sickness on board the steamer England, at Halifax, is really the cholera, as two other steamers since arrived in this country—the Hansa, with 700, and the Atlantic, with 900 passengers from British and German ports—had no sickness on board, nor were there any cases of that disease reported at the ports of departure. Ship fever is thought to be the sickness on board the England.

MRS. JEFFERSON DAVIS was in this city yesterday, on her way to Canada, to visit her children who are at school in that Province.

DEATH OF THOMAS DOWNING.—The well-known negro overseer and caterer of Broad street died on Tuesday, at the ripe age of 76 years. Mr. Downing was born in Accomac County, Va., in 1791. In 1819 he took up his residence in Philadelphia, whence, after a residence of seven years, he removed to this city, where he has resided since 1819. Uneducated himself, he took care that his children

and was ready to die under him." The Report of the Trust Society, which was read and adopted, after which the Committee on Freedmen submitted a report expressing sympathy with that class of our fellow-citizens, and declaring by resolutions that the freedmen are entitled to all the rights and privileges of other American citizens, including the right of suffrage, and expressing unqualified satisfaction with the Civil Rights bill, recently passed, and that they (the Committee) will seek to purge the statute-book of partial legislation, and the public conscience of the spirit of caste. The report of the Committee on the Bible Cause showed the receipts during the Jubilee year just ended to have been \$642,628; 1,466,748 volumes of the Scriptures were distributed, though the states of these volumes were valued at \$179,824. The Bishop then announced the following among his appointments:

A—DAILEY'S GALVANIC HORSE SALVE is the most wonderful Horse Ointment ever discovered; it is very easily applied, and is readily washed off with a little soap and water. It is supplanting entirely the use of liniments. Being contained in a large tin box, there is no danger of burning.

It is a certain cure for tinea, no matter how long standing, and can be applied while the horse works. A few applications will reduce the worst swellings and inflammations. For Cuts and Bruises, Nail-Picks and Sores, it is invaluable. Many cases of skin diseases have been cured with this Ointment. Scratches in the worst form will yield to its magic influence. Shifted Sand, Crack, Quarter Crack and Quittor have in many instances been rapidly cured by this Salve.
